# DRTE Editor for Flow Screens

With the DRTE Extension managed package, you get a DRTE from flow component to use in the flow screen.

Simply drag and drop the component, and define the expected properties in the DRTE for the flow component.

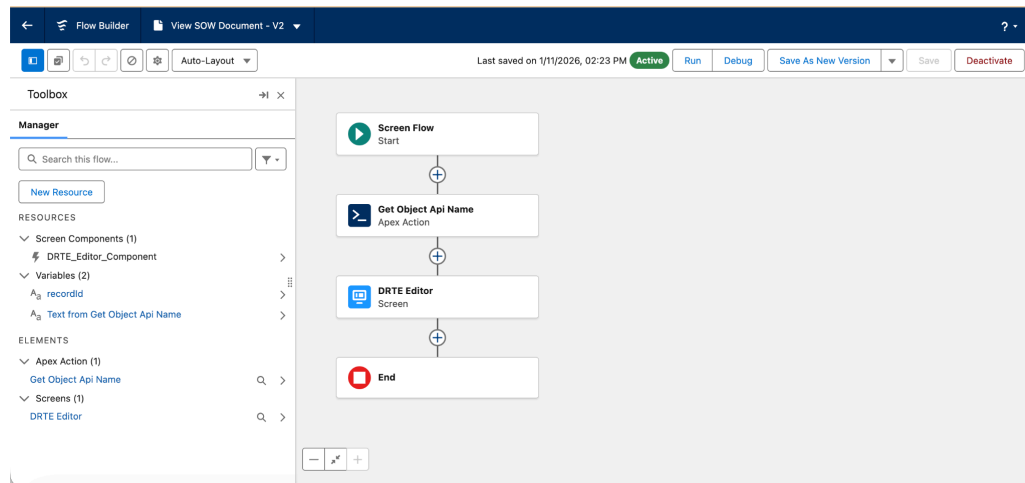

## How to add an action button for viewing a document ?

Step 1: set a recordId variable - available for input

Step 2: Invoke Get Object Name By ID action method

Step 3: Drag and Drop DRTE for Flow component on screen and fill the required properties.

The screenshot shows the Salesforce Setup > Object Manager interface. The left sidebar lists various setup options, with 'Buttons, Links, and Actions' selected. The main area displays the 'New Action' form for the 'PSC Quote Request' object. The form is titled 'Enter Action Information' and includes the following fields: Object Name (PSC Quote Request), Action Type (Flow), Flow (View SOW Document), Standard Label Type (--None--), Label (View SOW Document), Name (View\_SOW\_Document), Description (empty), and Icon (Change Icon). The form has 'Save' and 'Cancel' buttons at the bottom.
